Chapel

How lucky we are to have a chapel on the property. At least one wedding and a vow renewal have taken place in the chapel. If you are looking for a quiet place to meditate or to take time for a spiritual devotion, this is the place.

All burned out lights and candle batteries have been replaced in the chapel.

Mike McCandless and Andy Brown replaced light bulbs.

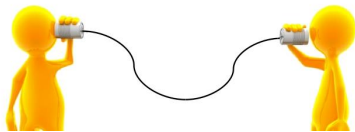

Did You Know?

The mural was completed by 13-year-old Israel Sanchez as a summer art project some years ago. He is the nephew of the initial developer Mario Gonzalez. The chapel was built in honor of Mario's mother.
