

Main Entrance Enhancements

- Gate direction changed to open *into* the community
- unsightly motors moved behind the columns
- keypad moved closer to gate
- yellow steel pole removed & replaced with a boulder for a more natural look
- map box from early development removed
- new “private property” sign to coordinate with other signage
- gate repainted
- rotted fencing replaced

What’s Next?

- new DW sign monument close to the entrance
- new mulch
- landscape lighting
- dead trees removed
- new trees/plants
- fencing painted

- new lanterns to be installed within a few days, with electrical wiring less focal.
